# Preamble

## Understanding Intratec Energy Prices & Markets Program

Amid a global push for renewable sources and ever-evolving geopolitical dynamics, energy markets have never been more complex or unpredictable. Shifting trade alliances, supply chain disruptions, and volatile pricing trends create a landscape that demands constant monitoring and strategic foresight.

To help businesses and decision-makers navigate such uncertainties, we designed the Intratec Energy Prices & Markets, a subscription-based program that provides monthly reports with comprehensive and up-to-date assessments into the energy prices and markets worldwide.

Each report helps subscribers answer essential questions around a country's energy market, such as:

- \* How have energy prices changed historically, and recently?
- \* What are the price forecasts for energy commodities?
- \* How do local energy prices compare to global market prices?
- \* What are the key trends in the country's energy production and consumption?
- \* How are freight and insurance costs affecting the competitiveness of energy imports and exports?
- \* To what extent is the country self-sufficient in energy production?
- \* Which countries are its main energy trade partners, and how reliant is it on energy imports or exports?
- \* How exposed is the country to financial or supply risks in its energy trade relationships?

## Commodities Approached by Report

Every report under Intratec Energy Prices & Markets program includes price and market assessments on essential energy commodities:

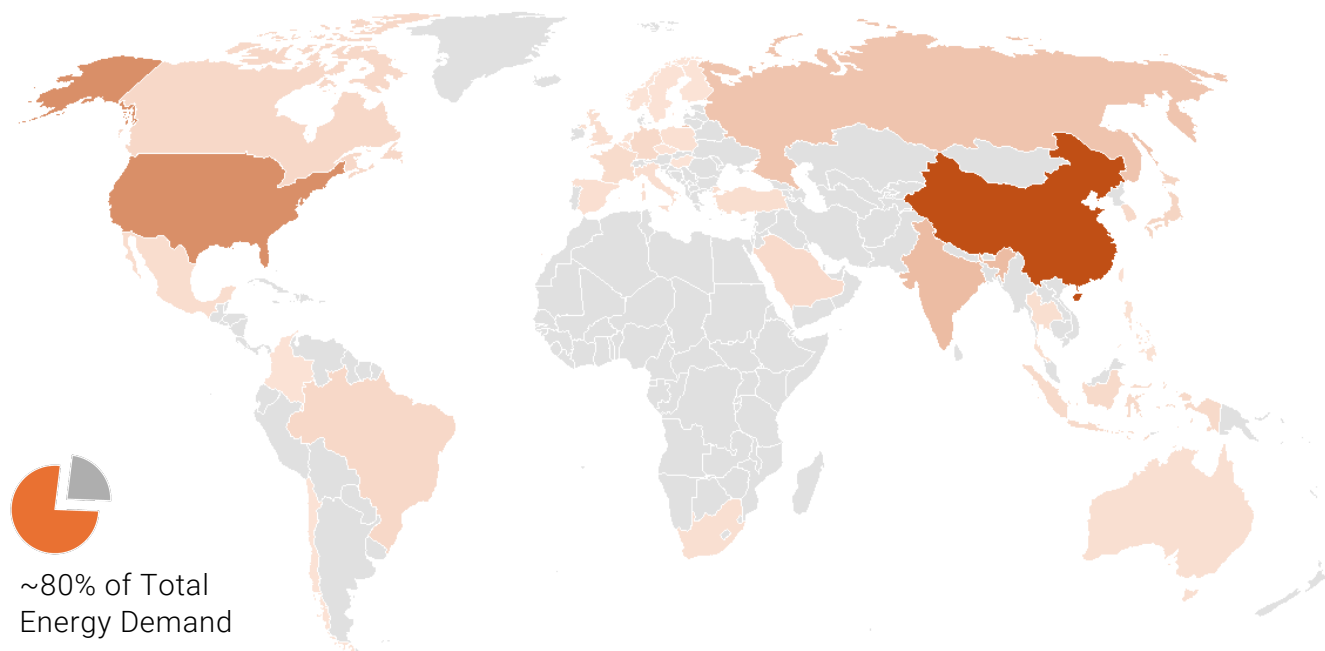

Each report is focused on a specific country. Subscribers receive new PDF reports every month, featuring the latest data and analyses, allowing them to stay informed about market trends.

## Available Reports

The Intratec Energy Prices & Markets program offers a selection of 33 country-specific reports, allowing subscribers to choose the countries that matter most to them. Upon subscription, they can tailor the coverage to their specific needs and receive only the selected reports monthly.

Such selection of countries covered in the program encompasses key players in the global energy landscape. These countries collectively account for significant shares of global energy production and demand, ensuring that subscribers gain insights into the most relevant markets influencing supply chains, price dynamics, and industry trends.

## How the Program is Organized

Each Intratec Energy Prices & Markets report is dedicated to a specific country, delivering in-depth analyses tailored to the selected location. The scope and depth of insights vary according to the subscription plan, ensuring that subscribers receive the level of detail that best suits their needs. Reports are released at the beginning of each month, providing timely updates on energy prices, forecasts, market trends, and key trade dynamics.

To ensure clarity and consistency, each report follows a structured identification format, which includes a unique code representing the subscription plan, the country covered, the release month and year, and the Intratec Energy Prices & Markets program designation:

INTRATEC-IEP-2403-USA-ADV

## About this Document

This guide is focused on China and was released on October 2025 as part of the Intratec Energy Prices & Markets program. Its purpose is to present and describe the full range of assessments provided by Intratec for this country, offering a clear overview of the scope covered in our monthly reports. The assessments are structured into the following sections:

- \* Price Assessments: Historical prices, recent trends, and short-term forecasts
- \* Freight Assessments: Transportation costs for energy imports and exports.
- \* Insurance Assessments: Insurance rates impacting energy trade.
- \* Market Analysis Assessments: Key indicators of local energy production and demand.
- \* Energy Self-Sufficiency and Trade Dependencies: Energy balances and trade reliance.
- \* Global Comparison: Benchmarking against global energy prices and trends.

## Assessment Definitions

The following pages present the basis of assessments covered in Intratec Prices & Markets. In short, for each assessment, the most likely commodity specification is provided, along with its delivery methods (PDF report, API, Excel and/or Power BI) and the unique assessment code used for identification. The assessment history is also outlined, indicating the time frame for which these evaluations are available, followed by the lag of each assessment (i.e., the number of months during which the preliminary price of a commodity is provided, rather than its final price).

It is important to highlight that Intratec may retire, add, or change an assessment in accordance with our commitment to relevant prices and market or country practices. For more information, the reader is referred to the section “*Disclaimers – Assessment Addition, Retirement, and Changes*” in *Intratec Energy Prices & Markets – General Methodology Guide*, available at:

# Price Assessments

## Biodiesel, UCOME, exp, spot, fob, China

|                                |                                                       |
|--------------------------------|-------------------------------------------------------|
| Specification:                 | Biodiesel (UCOME) Used cooking oil (UCO) methyl ester |
| Typical packing:               | bulk                                                  |
| Density   Net calorific value: | 880 kg/m <sup>3</sup>   36.5 GJ/mt                    |
| Pricing type   Market:         | spot   export                                         |
| Incoterm   Location:           | fob   China                                           |
| Currency   Quantity unit:      | Chinese Yuan   cubic meter (m <sup>3</sup> )          |
| Pricing model:                 | Compiled Prices                                       |
| Assessment chart legend:       | Biodiesel (UCOME), exp, CN                            |
| Final   Forecast:              | Jan/07-Sep/25   Oct/25-Mar/26                         |
| Delivery method(s):            | PDF   API   Excel   Power BI                          |
| Assessment code:               | 2827944-8-5                                           |

## Butane, n-, imp, spot, cfr, China

|                                |                                                               |
|--------------------------------|---------------------------------------------------------------|
| Specification:                 | n-butane content > 94.0 vol% and isobutane content < 6.0 vol% |
| Typical packing:               | bulk                                                          |
| Density   Net calorific value: | 599 kg/m <sup>3</sup>   46.2 GJ/mt                            |
| Pricing type   Market:         | spot   import                                                 |
| Incoterm   Location:           | cfr   China                                                   |
| Currency   Quantity unit:      | Chinese Yuan   metric ton (mt)                                |
| Pricing model:                 | Freight Based Calculation                                     |
| Assessment chart legend:       | Butane (n-), imp, CN                                          |
| Final   Forecast:              | Jan/07-Sep/25   Oct/25-Mar/26                                 |
| Delivery method(s):            | PDF   API   Excel   Power BI                                  |
| Assessment code:               | 972751-8-5                                                    |

### Coal, Anthracite, imp, transaction, cif, China

|                                 |                                      |
|---------------------------------|--------------------------------------|
| Specification:                  | unspecified anthracite               |
| Typical packing:                | bulk                                 |
| Density   Net calorific value:  | 1,050 kg/m <sup>3</sup>   29.7 GJ/mt |
| Pricing type   Market:          | transaction   import                 |
| Incoterm   Location:            | cif   China                          |
| Currency   Quantity unit:       | Chinese Yuan   metric ton (mt)       |
| Assessment chart legend:        | Coal (Anthracite), imp, CN           |
| Final   Preliminary   Forecast: | Jan/07-Aug/25   Sep/25   No forecast |
| Delivery method(s):             | PDF   API   Excel   Power BI         |
| Assessment code:                | 7139572-8-5                          |

### Coal, bituminous, imp, transaction, cif, China

|                                 |                                      |
|---------------------------------|--------------------------------------|
| Specification:                  | unspecified bituminous               |
| Typical packing:                | bulk                                 |
| Density   Net calorific value:  | 850 kg/m <sup>3</sup>   24.1 GJ/mt   |
| Pricing type   Market:          | transaction   import                 |
| Incoterm   Location:            | cif   China                          |
| Currency   Quantity unit:       | Chinese Yuan   metric ton (mt)       |
| Assessment chart legend:        | Coal (bituminous), imp, CN           |
| Final   Preliminary   Forecast: | Jan/07-Aug/25   Sep/25   No forecast |
| Delivery method(s):             | PDF   API   Excel   Power BI         |
| Assessment code:                | 3339575-8-5                          |

### Coal, sub-bituminous, imp, transaction, cif, China

|                                 |                                      |
|---------------------------------|--------------------------------------|
| Specification:                  | unspecified sub-bituminous           |
| Typical packing:                | bulk                                 |
| Density   Net calorific value:  | 750 kg/m <sup>3</sup>   30 GJ/mt     |
| Pricing type   Market:          | transaction   import                 |
| Incoterm   Location:            | cif   China                          |
| Currency   Quantity unit:       | Chinese Yuan   metric ton (mt)       |
| Assessment chart legend:        | Coal (sub-bituminous), imp, CN       |
| Final   Preliminary   Forecast: | Jan/07-Aug/25   Sep/25   No forecast |
| Delivery method(s):             | PDF   API   Excel   Power BI         |
| Assessment code:                | 9039576-8-5                          |

### Coal, Thermal, dom, spot, exw, China

|                                |                                                                                                             |
|--------------------------------|-------------------------------------------------------------------------------------------------------------|
| Specification:                 | thermal coal used in steam generation for electricity production or process heating, with 5,500 kcal/kg NAR |
| Packing:                       | bulk                                                                                                        |
| Density   Net calorific value: | 820 kg/m <sup>3</sup>   30 GJ/mt                                                                            |
| Pricing type   Market:         | spot   domestic                                                                                             |
| Incoterm   Location:           | exw   China                                                                                                 |
| Currency   Quantity unit:      | Chinese Yuan   metric ton (mt)                                                                              |
| Pricing model:                 | Compiled Prices                                                                                             |
| Assessment chart legend:       | Coal (Thermal), dom, CN                                                                                     |
| Final   Forecast:              | Jan/07-Sep/25   Oct/25-Mar/26                                                                               |
| Delivery method(s):            | PDF   API   Excel   Power BI                                                                                |
| Assessment code:               | 60420-8-5                                                                                                   |

### Crude Oil, m-Sour, imp, spot, cif, China

|                                |                                                            |
|--------------------------------|------------------------------------------------------------|
| Typical specification:         | medium sour, sulfur content of 1.5% wt., gravity of 32 API |
| Typical packing:               | bulk                                                       |
| Density   Net calorific value: | 865 kg/m <sup>3</sup>   45 GJ/mt                           |
| Pricing type   Market:         | spot   import                                              |
| Incoterm   Location:           | cif   China                                                |
| Currency   Quantity unit:      | Chinese Yuan   oil barrel (Bbl)                            |
| Pricing model:                 | Compiled Prices                                            |
| Assessment chart legend:       | Crude Oil (m-Sour), imp, CN                                |
| Final   Forecast:              | Jan/07-Sep/25   Oct/25-Mar/26                              |
| Delivery method(s):            | PDF   API   Excel   Power BI                               |
| Assessment code:               | 151439-8-5                                                 |

### Diesel, ULSD, dom, spot, exw, China

|                                |                                                  |
|--------------------------------|--------------------------------------------------|
| Typical specification:         | ultra-low-sulfur diesel, less than 15 ppm sulfur |
| Packing:                       | bulk                                             |
| Density   Net calorific value: | 850 kg/m <sup>3</sup>   45 GJ/mt                 |
| Pricing type   Market:         | spot   domestic                                  |
| Incoterm   Location:           | exw   China                                      |
| Currency   Quantity unit:      | Chinese Yuan   cubic meter (m <sup>3</sup> )     |
| Pricing model:                 | Compiled Prices                                  |
| Assessment chart legend:       | Diesel (ULSD), dom, CN                           |
| Final   Forecast:              | Jan/07-Sep/25   Oct/25-Mar/26                    |
| Delivery method(s):            | PDF   API   Excel   Power BI                     |
| Assessment code:               | 941155-8-5                                       |

## Electricity, hho, China

|                                 |                                                                    |
|---------------------------------|--------------------------------------------------------------------|
| Specification:                  | electricity purchased by domestic customers (band voltage < 400 V) |
| Market:                         | household                                                          |
| Location:                       | China                                                              |
| Currency   Quantity unit:       | Chinese Yuan   kilowatt hour (kWh)                                 |
| Pricing model:                  | Compiled Prices                                                    |
| Assessment chart legend:        | Electricity, hho, CN                                               |
| Final   Preliminary   Forecast: | Jan/01-Aug/25   Sep/25   Oct/25-Mar/26                             |
| Delivery method(s):             | PDF   API   Excel   Power BI                                       |
| Assessment code:                | 9620010-8-5                                                        |
| Remarks:                        | average for main cities                                            |

## Electricity, ind, Tianjin

|                                 |                                                                        |
|---------------------------------|------------------------------------------------------------------------|
| Specification:                  | band voltage > 35 kV                                                   |
| Market:                         | industrial sector                                                      |
| Location:                       | Tianjin                                                                |
| Currency   Quantity unit:       | Chinese Yuan   kilowatt hour (kWh)                                     |
| Pricing model:                  | Compiled Prices                                                        |

# Insurance Assessments

## Biodiesel Insurance

|                       |                               |
|-----------------------|-------------------------------|
| Commodity   Category: | Biodiesel   Light Fuels       |
| Final   Preliminary:  | Nov/12-Jul/25   Aug/25-Sep/25 |
| Delivery method(s):   | PDF   API   Excel   Power BI  |
| Assessment code:      | 2128174-8-0                   |
| Remarks:              | Percentage over CFR price     |

## Butane Insurance

|                       |                                  |
|-----------------------|----------------------------------|
| Commodity   Category: | Butane   Hydrocarbon Gas Liquids |
| Final   Preliminary:  | Jan/07-Jul/25   Aug/25-Sep/25    |
| Delivery method(s):   | PDF   API   Excel   Power BI     |
| Assessment code:      | 6128164-8-0                      |
| Remarks:              | Percentage over CFR price        |

## Coal Insurance

|                       |                               |
|-----------------------|-------------------------------|
| Commodity   Category: | Coal   Coal Products          |
| Final   Preliminary:  | Jan/07-Jul/25   Aug/25-Sep/25 |
| Delivery method(s):   | PDF   API   Excel   Power BI  |
| Assessment code:      | 6828171-8-0                   |
| Remarks:              | Percentage over CFR price     |

## Crude Oil Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Crude Oil   Heavy Oils       |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 1728165-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Diesel Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Diesel   Light Fuels         |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 7428166-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Ethanol Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Ethanol   Light Fuels        |
| Final   Preliminary:  | May/25-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 8928168-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Fuel Oil Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Fuel Oil   Heavy Oils        |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 0028170-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Gasoline Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Gasoline   Light Fuels       |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 1128161-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Kerosene Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Kerosene   Light Fuels       |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 5528162-8-0                  |
| Remarks:              | Percentage over CFR price    |

### LPG Insurance

|                       |                               |
|-----------------------|-------------------------------|
| Commodity   Category: | LPG   Hydrocarbon Gas Liquids |
| Final   Preliminary:  | Jan/07-Jul/25   Aug/25-Sep/25 |
| Delivery method(s):   | PDF   API   Excel   Power BI  |
| Assessment code:      | 8728175-8-0                   |
| Remarks:              | Percentage over CFR price     |

### Naphtha Insurance

|                       |                               |
|-----------------------|-------------------------------|
| Commodity   Category: | Naphtha   Light Fuels         |
| Final   Preliminary:  | Jan/07-Jul/25   Aug/25-Sep/25 |
| Delivery method(s):   | PDF   API   Excel   Power BI  |
| Assessment code:      | 0228163-8-0                   |
| Remarks:              | Percentage over CFR price     |

### Natural Gas Insurance

|                       |                              |
|-----------------------|------------------------------|
| Commodity   Category: | Natural Gas   LNG            |
| Final   Preliminary:  | Jan/07-Aug/25   Sep/25       |
| Delivery method(s):   | PDF   API   Excel   Power BI |
| Assessment code:      | 3628169-8-0                  |
| Remarks:              | Percentage over CFR price    |

### Propane Insurance

|                       |                                   |
|-----------------------|-----------------------------------|
| Commodity   Category: | Propane   Hydrocarbon Gas Liquids |
| Final   Preliminary:  | Jan/07-Jul/25   Aug/25-Sep/25     |
| Delivery method(s):   | PDF   API   Excel   Power BI      |
| Assessment code:      | 7228173-8-0                       |
| Remarks:              | Percentage over CFR price         |

# Market Analysis Assessments

## Demand, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 9736818-8-5                          |

## Demand, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m <sup>3</sup>                   |
| Market flow   Country: | Demand   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 3136817-8-5                               |

## Demand, Electricity, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Electricity                          |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 7836814-8-5                          |

## Demand, Geothermal, Solar, Wind, etc, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Geothermal, Solar, Wind, etc         |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 0636811-8-5                          |

### Demand, Hydro, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Hydro                                |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 5936810-8-5                          |

### Demand, Natural Gas, China

|                        |                |
|------------------------|----------------|
| Energy source:         | Natural Gas    |
| Density:               | 0.7 kg/m3      |
| Market flow   Country: | Demand   China |
| Quantity unit(s):      | petajoule (PJ) |
| Assessment period:     | Jan/10-May/25  |
| Delivery method(s):    | PDF            |
| Assessment code:       | 1236806-8-5    |

### Demand, Nuclear, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Nuclear                              |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 0836804-8-5                          |

### Demand, Oil and Oil Products, China

|                        |                      |
|------------------------|----------------------|
| Energy source:         | Oil and Oil Products |
| Market flow   Country: | Demand   China       |
| Quantity unit(s):      | petajoule (PJ)       |
| Assessment period:     | Jan/10-May/25        |
| Delivery method(s):    | PDF                  |
| Assessment code:       | 5036803-8-5          |

### Demand, Renewables, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Renewables                           |
| Market flow   Country: | Demand   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 9936800-8-5                          |

### Demand, Total Energy, China

|                        |                |
|------------------------|----------------|
| Energy source:         | Total Energy   |
| Market flow   Country: | Demand   China |
| Quantity unit(s):      | petajoule (PJ) |
| Assessment period:     | Jan/10-May/25  |
| Delivery method(s):    | PDF            |
| Assessment code:       | 8136799-8-5    |

### Demand, Total Oil, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil                       |
| Market flow   Country: | Demand   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 2436798-8-5                     |

### Demand, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Demand   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 7736797-8-5                     |

### Domestic Supply, Diesel, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Diesel                                |
| Density:               | 844 kg/m3                             |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 5836793-8-5                           |

### Domestic Supply, Fuel Oil, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Fuel Oil                              |
| Density:               | 930 kg/m3                             |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 4336791-8-5                           |

### Domestic Supply, Gasoline, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Gasoline                              |
| Density:               | 741 kg/m3                             |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 9636790-8-5                           |

### Domestic Supply, Kerosenes, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Kerosenes                             |
| Density:               | 803 kg/m3                             |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 0736787-8-5                           |

### Domestic Supply, LPG, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | LPG                                   |
| Density:               | 522 kg/m <sup>3</sup>                 |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 5136786-8-5                           |

### Domestic Supply, Naphtha, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Naphtha                               |
| Density:               | 691 kg/m <sup>3</sup>                 |
| Market flow   Country: | Domestic Supply   China               |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 1636785-8-5                           |

### Domestic Supply, Other Oil Products, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Oil Products                        |
| Density:               | 786 kg/m <sup>3</sup>                     |
| Market flow   Country: | Domestic Supply   China                   |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 5136779-8-5                               |

### Domestic Supply, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Domestic Supply   China         |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 9136776-8-5                     |

### Electricity Generation, Biofuels and Waste, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Biofuels and Waste             |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 2136759-8-5                    |

### Electricity Generation, Coal, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Coal                           |
| Density:               | 1,500 kg/m3                    |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 7436758-8-5                    |

### Electricity Generation, Electricity, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Electricity                    |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 1736757-8-5                    |

### Electricity Generation, Geothermal, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Geothermal                     |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 6136756-8-5                    |

### Electricity Generation, Hydro, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Hydro                          |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 0236755-8-5                    |

### Electricity Generation, Natural Gas, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Natural Gas                    |
| Density:               | 0.7 kg/m3                      |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 5536754-8-5                    |

### Electricity Generation, Nuclear, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Nuclear                        |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 4036752-8-5                    |

### Electricity Generation, Other Electricity Sources, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Other Electricity Sources      |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 3636750-8-5                    |

### Electricity Generation, Renewables, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Renewables                     |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 6136749-8-5                    |

### Electricity Generation, Solar, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Solar                          |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 0436748-8-5                    |

### Electricity Generation, Total Oil Products, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Total Oil Products             |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 5736747-8-5                    |

### Electricity Generation, Wind, China

|                        |                                |
|------------------------|--------------------------------|
| Energy source:         | Wind                           |
| Market flow   Country: | Electricity Generation   China |
| Quantity unit(s):      | gigawatt hour (GWh)            |
| Assessment period:     | Jan/10-May/25                  |
| Delivery method(s):    | PDF                            |
| Assessment code:       | 1336746-8-5                    |

### Export, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Export   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 1036732-8-5                          |

### Export, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m3                               |
| Market flow   Country: | Export   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 6336731-8-5                               |

### Export, Crude Oil, China

|                        |                                             |
|------------------------|---------------------------------------------|
| Energy source:         | Crude Oil                                   |
| Density:               | 853 kg/m3                                   |
| Market flow   Country: | Export   China                              |
| Quantity unit(s):      | million oil barrel (MMbbl)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                               |
| Delivery method(s):    | PDF                                         |
| Assessment code:       | 0636730-8-5                                 |

### Export, Diesel, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Diesel                                |
| Density:               | 844 kg/m3                             |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 3136729-8-5                           |

### Export, Electricity, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Electricity                          |
| Market flow   Country: | Export   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 8436728-8-5                          |

### Export, Fuel Oil, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Fuel Oil                              |
| Density:               | 930 kg/m3                             |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 2736727-8-5                           |

### Export, Gasoline, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Gasoline                              |
| Density:               | 741 kg/m3                             |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 7136726-8-5                           |

### Export, Kerosenes, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Kerosenes                             |
| Density:               | 803 kg/m3                             |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 1236725-8-5                           |

### Export, LPG, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | LPG                                   |
| Density:               | 522 kg/m <sup>3</sup>                 |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 6536724-8-5                           |

### Export, Naphtha, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Naphtha                               |
| Density:               | 691 kg/m <sup>3</sup>                 |
| Market flow   Country: | Export   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 0836723-8-5                           |

### Export, Natural Gas, China

|                        |                       |
|------------------------|-----------------------|
| Energy source:         | Natural Gas           |
| Density:               | 0.7 kg/m <sup>3</sup> |
| Market flow   Country: | Export   China        |
| Quantity unit(s):      | petajoule (PJ)        |
| Assessment period:     | Jan/10-May/25         |
| Delivery method(s):    | PDF                   |
| Assessment code:       | 5036722-8-5           |

### Export, NGL, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | NGL                                       |
| Density:               | 522 kg/m <sup>3</sup>                     |
| Market flow   Country: | Export   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 1736721-8-5                               |

**Export, Oil and Oil Products, China**

|                        |                      |
|------------------------|----------------------|
| Energy source:         | Oil and Oil Products |
| Market flow   Country: | Export   China       |
| Quantity unit(s):      | petajoule (PJ)       |
| Assessment period:     | Jan/10-May/25        |
| Delivery method(s):    | PDF                  |
| Assessment code:       | 4636720-8-5          |

**Export, Other Feedstock, China**

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Feedstock                           |
| Density:               | 789 kg/m <sup>3</sup>                     |
| Market flow   Country: | Export   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 7136719-8-5                               |

**Export, Other Oil Products, China**

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Oil Products                        |
| Density:               | 786 kg/m <sup>3</sup>                     |
| Market flow   Country: | Export   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 1436718-8-5                               |

**Export, Total Energy, China**

|                        |                |
|------------------------|----------------|
| Energy source:         | Total Energy   |
| Market flow   Country: | Export   China |
| Quantity unit(s):      | petajoule (PJ) |
| Assessment period:     | Jan/10-May/25  |
| Delivery method(s):    | PDF            |
| Assessment code:       | 6736717-8-5    |

### Export, Total Oil, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil                       |
| Market flow   Country: | Export   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 0136716-8-5                     |

### Export, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Export   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 5236715-8-5                     |

### Final Consumption, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Final Consumption   China            |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 1936714-8-5                          |

### Final Consumption, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m <sup>3</sup>                   |
| Market flow   Country: | Final Consumption   China                 |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 4836713-8-5                               |

### Final Consumption, Electricity, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Electricity                          |
| Market flow   Country: | Final Consumption   China            |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 3336711-8-5                          |

### Final Consumption, Heat, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Heat                            |
| Market flow   Country: | Final Consumption   China       |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 1036707-8-5                     |

### Final Consumption, Natural Gas, China

|                        |                           |
|------------------------|---------------------------|
| Energy source:         | Natural Gas               |
| Density:               | 0.7 kg/m <sup>3</sup>     |
| Market flow   Country: | Final Consumption   China |
| Quantity unit(s):      | petajoule (PJ)            |
| Assessment period:     | Jan/10-May/25             |
| Delivery method(s):    | PDF                       |
| Assessment code:       | 2036702-8-5               |

### Final Consumption, Oil and Oil Products, China

|                        |                           |
|------------------------|---------------------------|
| Energy source:         | Oil and Oil Products      |
| Market flow   Country: | Final Consumption   China |
| Quantity unit(s):      | petajoule (PJ)            |
| Assessment period:     | Jan/10-May/25             |
| Delivery method(s):    | PDF                       |
| Assessment code:       | 1636700-8-5               |

### Final Consumption, Total Energy, China

|                        |                           |
|------------------------|---------------------------|
| Energy source:         | Total Energy              |
| Market flow   Country: | Final Consumption   China |
| Quantity unit(s):      | petajoule (PJ)            |
| Assessment period:     | Jan/10-May/25             |
| Delivery method(s):    | PDF                       |
| Assessment code:       | 5136698-8-5               |

### Final Consumption, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Final Consumption   China       |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 1836697-8-5                     |

### Import, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Import   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 4736696-8-5                          |

### Import, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m <sup>3</sup>                   |
| Market flow   Country: | Import   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 9136695-8-5                               |

### Import, Crude Oil, China

|                        |                                             |
|------------------------|---------------------------------------------|
| Energy source:         | Crude Oil                                   |
| Density:               | 853 kg/m <sup>3</sup>                       |
| Market flow   Country: | Import   China                              |
| Quantity unit(s):      | million oil barrel (MMbbl)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                               |
| Delivery method(s):    | PDF                                         |
| Assessment code:       | 3236694-8-5                                 |

### Import, Diesel, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Diesel                                |
| Density:               | 844 kg/m <sup>3</sup>                 |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 8536693-8-5                           |

### Import, Electricity, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Electricity                          |
| Market flow   Country: | Import   China                       |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 2836692-8-5                          |

### Import, Fuel Oil, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Fuel Oil                              |
| Density:               | 930 kg/m <sup>3</sup>                 |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 7036691-8-5                           |

### Import, Gasoline, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Gasoline                              |
| Density:               | 741 kg/m3                             |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 1336690-8-5                           |

### Import, Kerosenes, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Kerosenes                             |
| Density:               | 803 kg/m3                             |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 4936689-8-5                           |

### Import, LPG, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | LPG                                   |
| Density:               | 522 kg/m3                             |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 9136688-8-5                           |

### Import, Naphtha, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Naphtha                               |
| Density:               | 691 kg/m3                             |
| Market flow   Country: | Import   China                        |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 3436687-8-5                           |

### Import, Natural Gas, China

|                        |                |
|------------------------|----------------|
| Energy source:         | Natural Gas    |
| Density:               | 0.7 kg/m3      |
| Market flow   Country: | Import   China |
| Quantity unit(s):      | petajoule (PJ) |
| Assessment period:     | Jan/10-May/25  |
| Delivery method(s):    | PDF            |
| Assessment code:       | 8736686-8-5    |

### Import, NGL, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | NGL                                       |
| Density:               | 522 kg/m3                                 |
| Market flow   Country: | Import   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 2136685-8-5                               |

### Import, Oil and Oil Products, China

|                        |                      |
|------------------------|----------------------|
| Energy source:         | Oil and Oil Products |
| Market flow   Country: | Import   China       |
| Quantity unit(s):      | petajoule (PJ)       |
| Assessment period:     | Jan/10-May/25        |
| Delivery method(s):    | PDF                  |
| Assessment code:       | 7236684-8-5          |

### Import, Other Feedstock, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Feedstock                           |
| Density:               | 789 kg/m3                                 |
| Market flow   Country: | Import   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 1536683-8-5                               |

### Import, Other Oil Products, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Oil Products                        |
| Density:               | 786 kg/m <sup>3</sup>                     |
| Market flow   Country: | Import   China                            |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 6836682-8-5                               |

### Import, Total Energy, China

|                        |                |
|------------------------|----------------|
| Energy source:         | Total Energy   |
| Market flow   Country: | Import   China |
| Quantity unit(s):      | petajoule (PJ) |
| Assessment period:     | Jan/10-May/25  |
| Delivery method(s):    | PDF            |
| Assessment code:       | 0036681-8-5    |

### Import, Total Oil, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil                       |
| Market flow   Country: | Import   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 5336680-8-5                     |

### Import, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Import   China                  |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 8936679-8-5                     |

### Net Trade, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Net Trade   China                    |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 2136678-8-5                          |

### Net Trade, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m <sup>3</sup>                   |
| Market flow   Country: | Net Trade   China                         |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 7436677-8-5                               |

### Net Trade, Crude Oil, China

|                        |                                             |
|------------------------|---------------------------------------------|
| Energy source:         | Crude Oil                                   |
| Density:               | 853 kg/m <sup>3</sup>                       |
| Market flow   Country: | Net Trade   China                           |
| Quantity unit(s):      | million oil barrel (MMbbl)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                               |
| Delivery method(s):    | PDF                                         |
| Assessment code:       | 1736676-8-5                                 |

### Net Trade, Diesel, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Diesel                                |
| Density:               | 844 kg/m <sup>3</sup>                 |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 6136675-8-5                           |

### Net Trade, Electricity, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Electricity                          |
| Market flow   Country: | Net Trade   China                    |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 0236674-8-5                          |

### Net Trade, Fuel Oil, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Fuel Oil                              |
| Density:               | 930 kg/m <sup>3</sup>                 |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 5536673-8-5                           |

### Net Trade, Gasoline, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Gasoline                              |
| Density:               | 741 kg/m <sup>3</sup>                 |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 1136672-8-5                           |

### Net Trade, Kerosenes, China

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Kerosenes                             |
| Density:               | 803 kg/m <sup>3</sup>                 |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 4036671-8-5                           |

**Net Trade, LPG, China**

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | LPG                                   |
| Density:               | 522 kg/m3                             |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 9336670-8-5                           |

**Net Trade, Naphtha, China**

|                        |                                       |
|------------------------|---------------------------------------|
| Energy source:         | Naphtha                               |
| Density:               | 691 kg/m3                             |
| Market flow   Country: | Net Trade   China                     |
| Quantity unit(s):      | kilo metric ton (kt)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                         |
| Delivery method(s):    | PDF                                   |
| Assessment code:       | 1936669-8-5                           |

**Net Trade, Natural Gas, China**

|                        |                   |
|------------------------|-------------------|
| Energy source:         | Natural Gas       |
| Density:               | 0.7 kg/m3         |
| Market flow   Country: | Net Trade   China |
| Quantity unit(s):      | petajoule (PJ)    |
| Assessment period:     | Jan/10-May/25     |
| Delivery method(s):    | PDF               |
| Assessment code:       | 6136668-8-5       |

**Net Trade, NGL, China**

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | NGL                                       |
| Density:               | 522 kg/m3                                 |
| Market flow   Country: | Net Trade   China                         |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 0436667-8-5                               |

### Net Trade, Oil and Oil Products, China

|                        |                      |
|------------------------|----------------------|
| Energy source:         | Oil and Oil Products |
| Market flow   Country: | Net Trade   China    |
| Quantity unit(s):      | petajoule (PJ)       |
| Assessment period:     | Jan/10-May/25        |
| Delivery method(s):    | PDF                  |
| Assessment code:       | 5736666-8-5          |

### Net Trade, Other Feedstock, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Feedstock                           |
| Density:               | 789 kg/m <sup>3</sup>                     |
| Market flow   Country: | Net Trade   China                         |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 1336665-8-5                               |

### Net Trade, Other Oil Products, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Other Oil Products                        |
| Density:               | 786 kg/m <sup>3</sup>                     |
| Market flow   Country: | Net Trade   China                         |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 4236664-8-5                               |

### Net Trade, Total Energy, China

|                        |                   |
|------------------------|-------------------|
| Energy source:         | Total Energy      |
| Market flow   Country: | Net Trade   China |
| Quantity unit(s):      | petajoule (PJ)    |
| Assessment period:     | Jan/10-May/25     |
| Delivery method(s):    | PDF               |
| Assessment code:       | 9536663-8-5       |

### Net Trade, Total Oil, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil                       |
| Market flow   Country: | Net Trade   China               |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 3836662-8-5                     |

### Net Trade, Total Oil Products, China

|                        |                                 |
|------------------------|---------------------------------|
| Energy source:         | Total Oil Products              |
| Market flow   Country: | Net Trade   China               |
| Quantity unit(s):      | terajoule (TJ)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                   |
| Delivery method(s):    | PDF                             |
| Assessment code:       | 8036661-8-5                     |

### Production, Biofuels and Waste, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Biofuels and Waste                   |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 2336660-8-5                          |

### Production, Coal, China

|                        |                                           |
|------------------------|-------------------------------------------|
| Energy source:         | Coal                                      |
| Density:               | 1,500 kg/m <sup>3</sup>                   |
| Market flow   Country: | Production   China                        |
| Quantity unit(s):      | million metric ton (MMT)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                             |
| Delivery method(s):    | PDF                                       |
| Assessment code:       | 5936659-8-5                               |

### Production, Geothermal, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Geothermal                           |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 4436657-8-5                          |

### Production, Geothermal, Solar, Wind, etc, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Geothermal, Solar, Wind, etc         |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 9736656-8-5                          |

### Production, Hydro, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Hydro                                |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 3136655-8-5                          |

### Production, Natural Gas, China

|                        |                    |
|------------------------|--------------------|
| Energy source:         | Natural Gas        |
| Density:               | 0.7 kg/m3          |
| Market flow   Country: | Production   China |
| Quantity unit(s):      | petajoule (PJ)     |
| Assessment period:     | Jan/10-May/25      |
| Delivery method(s):    | PDF                |
| Assessment code:       | 8236654-8-5        |

### Production, Nuclear, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Nuclear                              |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 7836652-8-5                          |

### Production, Oil and Oil Products, China

|                        |                      |
|------------------------|----------------------|
| Energy source:         | Oil and Oil Products |
| Market flow   Country: | Production   China   |
| Quantity unit(s):      | petajoule (PJ)       |
| Assessment period:     | Jan/10-May/25        |
| Delivery method(s):    | PDF                  |
| Assessment code:       | 1036651-8-5          |

### Production, Renewables, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Renewables                           |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 9936649-8-5                          |

### Production, Solar, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Solar                                |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 3136648-8-5                          |

## Production, Total Energy, China

|                        |                    |
|------------------------|--------------------|
| Energy source:         | Total Energy       |
| Market flow   Country: | Production   China |
| Quantity unit(s):      | petajoule (PJ)     |
| Assessment period:     | Jan/10-May/25      |
| Delivery method(s):    | PDF                |
| Assessment code:       | 8436647-8-5        |

## Production, Wind, China

|                        |                                      |
|------------------------|--------------------------------------|
| Energy source:         | Wind                                 |
| Market flow   Country: | Production   China                   |
| Quantity unit(s):      | gigawatt hour (GWh)   petajoule (PJ) |
| Assessment period:     | Jan/10-May/25                        |
| Delivery method(s):    | PDF                                  |
| Assessment code:       | 7136645-8-5                          |

# Energy Self-Sufficiency and Trade Dependencies

## Energy Self-Sufficiency, China

|                     |               |
|---------------------|---------------|
| Country:            | China         |
| Unit:               | Percent (%)   |
| Assessment period:  | Jan/15-May/25 |
| Delivery method(s): | PDF           |
| Assessment code:    | 0028743-8-5   |

## China Energy Imports from Australia (% Australia GDP)

|                       |                                    |
|-----------------------|------------------------------------|
| Energy Source:        | Total energy imports               |
| Origin   Destination: | Australia   China                  |
| Unit:                 | Percent (%) share of Australia GDP |
| Assessment period:    | Jan/13-Jul/25                      |
| Delivery method(s):   | PDF                                |
| Assessment code:      | 3529333-8-5                        |

## China Energy Imports from Australia (% China GDP)

|                       |                                |
|-----------------------|--------------------------------|
| Energy Source:        | Total energy imports           |
| Origin   Destination: | Australia   China              |
| Unit:                 | Percent (%) share of China GDP |
| Assessment period:    | Jan/13-Jul/25                  |
| Delivery method(s):   | PDF                            |
| Assessment code:      | 5729023-8-5                    |

## China Energy Imports from Malaysia (% China GDP)

|                       |                                |
|-----------------------|--------------------------------|
| Energy Source:        | Total energy imports           |
| Origin   Destination: | Malaysia   China               |
| Unit:                 | Percent (%) share of China GDP |
| Assessment period:    | Jan/13-Jul/25                  |
| Delivery method(s):   | PDF                            |
| Assessment code:      | 1329022-8-5                    |

**China Energy Imports from Malaysia (% Malaysia GDP)**

|                       |                                   |
|-----------------------|-----------------------------------|
| Energy Source:        | Total energy imports              |
| Origin   Destination: | Malaysia   China                  |
| Unit:                 | Percent (%) share of Malaysia GDP |
| Assessment period:    | Jan/13-Jul/25                     |
| Delivery method(s):   | PDF                               |
| Assessment code:      | 8829332-8-5                       |

**China Energy Imports from Rest of World (% China GDP)**

|                       |                                |
|-----------------------|--------------------------------|
| Energy Source:        | Total energy imports           |
| Origin   Destination: | Rest of World   China          |
| Unit:                 | Percent (%) share of China GDP |
| Assessment period:    | Jan/13-Jul/25                  |
| Delivery method(s):   | PDF                            |
| Assessment code:      | 5731435-8-5                    |

**China Energy Imports from Russia (% Russia GDP)**

|                       |                                 |
|-----------------------|---------------------------------|
| Energy Source:        | Total energy imports            |
| Origin   Destination: | Russia   China                  |
| Unit:                 | Percent (%) share of Russia GDP |
| Assessment period:    | Jan/13-Jul/25                   |
| Delivery method(s):   | PDF                             |
| Assessment code:      | 1229329-8-5                     |

**China Energy Imports from Russia (% China GDP)**

|                       |                                |
|-----------------------|--------------------------------|
| Energy Source:        | Total energy imports           |
| Origin   Destination: | Russia   China                 |
| Unit:                 | Percent (%) share of China GDP |
| Assessment period:    | Jan/13-Jul/25                  |
| Delivery method(s):   | PDF                            |
| Assessment code:      | 1029019-8-5                    |

**China Energy Imports from Saudi Arabia (% China GDP)**

|                       |                                |
|-----------------------|--------------------------------|
| Energy Source:        | Total energy imports           |
| Origin   Destination: | Saudi Arabia   China           |
| Unit:                 | Percent (%) share of China GDP |
| Assessment period:    | Jan/13-Jul/25                  |
| Delivery method(s):   | PDF                            |
| Assessment code:      | 9529020-8-5                    |

**China Energy Imports from Saudi Arabia (% Saudi Arabia GDP)**

|                       |                                       |
