

## About Intratec Production Cost Reports

Intratec provides best-in-class professional studies examining production processes, with independent analyses of capital and operating costs. Our reports are focused on technologies for the production of +250 commodities, spanning a wide and diverse array of sectors: petrochemicals; plastics & polymers; inorganic chemicals; fertilizers & food; oil, gas & derivatives; renewables & recyclables.

### In-depth, Comprehensive Techno-economic Analysis of Production Technologies

Check below the content covered in our reports and why they are the best-in-class studies examining the costs of production!

Key Process Information

Utilities Consumption

Process Flow Diagram

Capital Cost Analysis

Implementation Schedule

Construction Cost Details

Operating Cost Breakdown

Plant Capacity Scenarios

Multi-regional Cost Analysis

### Who Uses Our Reports?

- **Strategic Planning Groups:** to understand industrial processes' feasibility
- **New Business Development Teams:** to obtain unbiased, detailed estimates of processes' capital and operating costs; to evaluate/select independent technology licensors; to screen technology M&A opportunities
- **R&D, Innovation Staff:** to analyze process technologies

### Purchasing Intratec Reports

Intratec offers **off-the-shelf reports**, **reports subscriptions** and **bespoke reports** - all can be purchased online! Learn more in the next pages!

## Off-the-Shelf Reports

### Best-in-class Studies Examining Production Technologies

Intratec has a library of +780 off-the-shelf reports covering production processes of +250 commodities, spanning the sectors listed below. For each commodity, Intratec offers between 1 and 10 reports, where each report examines one specific production process.

- **Petrochemicals**

(e.g. Ethylene, Propylene, Butadiene, Toluene, Xylene, VCM, Terephthalic Acid, Styrene, Methanol)

- **Plastics & Polymers**

(e.g. ABS, Butadiene Rubber, Epoxy Resins, HDPE, LLDPE, LDPE, PP, Polysterene, PVC, SBR, NBR)

- **Inorganic Chemicals**

(e.g. Aluminum Hydroxide, Calcium Hypochlorite, Caustic Soda, Chlorine, Hydrogen Peroxide, Silica)

- **Fertilizers & Food**

(e.g. Ammonia, DAP, Sulfuric Acid, Urea, Citric Acid, Lysine, Methionine)

- **Oil, Gas & Derivatives**

(e.g. Ethanol, Syngas)

- **Renewables & Recyclables**

(e.g. Bio-Methionine, Green Ethylene, Green Propylene, Ethanol, Succinic Acid, PLA)

### Report Versions

Each report is focused on a specific production process, but is available in three different versions: basic, extended and advanced. It is presented below the main differences among report versions.

**Content.** The report versions differ in the amount/depth of content, in such a way that the advanced version presents the most in-depth, comprehensive analyses.

**Delivery Format.** Basic Versions are delivered as online PDFs, Extended Versions are delivered as downloadable, non-printable PDFs and Advanced Versions are delivered as printable PDFs.

### Purchasing Off-the-Shelf Reports

All off-the-shelf reports are available online to purchase at Intratec website, securely and on-demand 24 hours a day, 365 days a year. Payments can be made through credit cards, bank transfers and online payment services like PayPal.

**More Information at [www.intratec.us](http://www.intratec.us)**

**+780 Off-the-Shelf Reports**

**Capital & Operating Costs Breakdowns**

**Use as Feasibility Studies or Investment Analysis**

**Buy Online Secure Purchase**

## Reports Subscriptions

### An Unprecedented Offer for Corporate Customers

Intratec provides best-in-class professional studies examining production processes, with independent analyses of capital and operating costs. Our reports are focused on technologies for the production of +250 commodities, spanning a wide and diverse array of sectors: petrochemicals; plastics & polymers; inorganic chemicals; fertilizers & food; oil, gas & derivatives; renewables & Recyclables..

Intratec designed reports subscriptions specifically tailored to meet the needs of our corporate customers. Every year, customers with subscriptions receive 36 best-in-class reports for just a fraction of the cost! Our reports subscriptions are the best solution available in the market for corporate customers: while our reports cost typically between \$1,599 and \$2,999, subscribers get 36 reports for just \$18,900, saving around 70%! To subscribe now, click here.!

With their subscription, companies are able to build a repository of independent, reliable and easy-to-compare process economic analyses.

### Subscription Details:

- 36 Reports per Year
- Best-in-class Reports
- Downloadable PDF Reports
- Premium Support
- Share with Coworkers

Subscription Fee:

**\$18,900.00** *(70% Off on reports regular prices)*

Reports subscription programs can be purchased online. Payments can be made via credit cards, PayPal, wire transfers and local bank transfers.

All reports are delivered upon payment confirmation.

**36 Best-in-class Reports**

**Best Value**  
**Save 70%**

**Perfect for Corporations**

**Delivered in ~2 weeks**

## Bespoke Reports

### Get a Report Tailored to Your Needs

If none of the off-the-shelf reports presented at our reports store could fit your needs, that is not a problem – you can request a bespoke report examining the process you are interested in!

The bespoke report will be a Production Cost Report developed on demand for you, tailored to your needs. The study will be focused on the production process of your interest, and will be developed according to assumptions you define, such as industrial plant production capacity and location. As all Intratec Production Cost Reports, the bespoke report will be based on recent economic data!

### Request Online, in 3 Steps - No Meetings or Phone Calls Required!

#### 1 Identify the Product and the Process of Your Interest

Identify the product and the respective production process you are interested in, by filling a brief form online.

#### 2 Select the Scope of the Bespoke Report

Select one among three options available for the bespoke report scope, knowing preliminary budgets and delivery times.

#### 3 Review & Submit your Request for Quotation

Review the information provided and submit your request for quotation. Intratec sends the definitive quotation in 2 business days, with instructions for concluding the purchase.

### How Intratec Develops Bespoke Reports

Bespoke reports, like all Intratec Production Cost Reports, are based on extensive, in-depth bibliographical researchs targeting information about industrial processes drawn from public sources, including patents, encyclopedias, text books, technical papers and non-confidential information disclosed by licensors, duly reviewed by Intratec.

**More Information at [www.intratec.us](http://www.intratec.us)**

**Tailor-made  
Reports**

**Capital & Operating  
Costs Breakdowns**

**Order Online  
Secure Purchase**

**Delivered in  
~2 weeks**

## About Intratec

In operation since 2002, Intratec is a leading provider of market and technology intelligence about process industries.

We are a group of process engineers, market researchers and cost estimators with extensive industry experience. In a nutshell, our business is about providing up-to-date and independent analyses examining production processes, as well as critical data surrounding industry-related markets.

**Our portfolio covers +900 products**, among reports and online databases, which provide key information related to process industries spanning: petrochemicals; plastics & polymers; inorganic chemicals; fertilizers & food; renewables & recyclables; oil, gas & derivatives; metals & mining; specialty chemicals and energy & utilities.

With a set of well-designed offerings, we serve a diverse group of customers from all over the world. Fortune 500 companies have a repository of reliable and easy-to-compare process economic analyses through our **reports subscription plans**, while biotech startups, local manufacturers and consultants often choose our **+770 reports** to ascertain the costs of a specific production process. Hundreds of corporate and individual subscribers to our **market data** monitor prices of +200 commodities and utilities.

Our studies and data have been used by our clients in multiple ways, such as:

- To obtain estimates of capital and operating costs of industrial plants
- To learn about the economic potential of R&D breakthroughs
- To screen and assess industrial investment options
- To monitor commodities and utilities prices around the world

## Partnership with Chemical Engineering Magazine

We pride ourselves on being the originator and editor of the Chemical Engineering Magazine's monthly "Technology Profile" column, which helps readers gain a better understanding of critical aspects of specific chemical process technologies.

## Some of Our Customers

- ExxonMobil
- Proctor & Gamble
- Dow
- Evonik
- Shell
- Corbion
- Lyondell Basell
- Siemens
- Fluor
- Hexion
- BASF
- Adisseo
- Sumitomo Chemical
- Total
- SNC Lavallin

## Who Uses our Products

- Producers / Manufacturers
- Distributors / Traders / Logistics
- Service Providers / Consulting
- Associations / Governments
- Finance Industry / Banks
- Schools / Educational Institutions
